## January / Janvier

MINIREVIEW / MINISYNTHÈSE

**H.D. Addy, M.M. Piercey, and R.S. Currah** Microfungal endophytes in roots 1

ARTICLES / ARTICLES

**Mark Landry and Les C. Cwynar** History of the endangered thread-leaved sundew (*Drosera filiformis*) in southern Nova Scotia 14

**C. Armstrong-Cho and B.D. Gossen** Impact of glandular hair exudates on infection of chickpea by *Ascochyta rabiei* 22

**Daowei Zhou, Tianhui Wang, and Ian Valentine** Phenotypic plasticity of life-history characters in response to different germination timing in two annual weeds 28

**Cheng-Lin Hou, Ying-Ren Lin, and Meike Piepenbring** Species of Rhytismataceae on needles of *Juniperus* spp. from China 37

**Jung-Kang Jin, Hui-Ling Chen, Chih-Wen Yu, and Chin-Ho Lin** Establishment of a plastochron index for growth assessment of *Phalaenopsis* 47

**Olinto Liparini Pereira, Maria Catarina Megumi Kasuya, Arnaldo Chaer Borges, Elza Fernandes de Araújo** Morphological and molecular characterization of mycorrhizal fungi isolated from neotropical orchids in Brazil 54

**L.S. Zhang, V. Le Clerc, S. Li, and D. Zhang** Establishment of an effective set of simple sequence repeat markers for sunflower variety identification and diversity assessment 66

**Mikhail V. Kozlov** Contrasting response of mountain birch to damage by *Eriocrania* leafminers in polluted and unpolluted habitats 73

**J.G. Menzies, D.L. Ehret, C. Koch, J.W. Hall, K.A. Seifert, J. Bissett, and D.J.S. Barr** Fungi associated with roots of cucumber grown in different greenhouse root substrates 80

**Sachiko Nishida, Akiyo Naiki, and Takayoshi Nishida** Morphological variation in leaf domatia enables coexistence of antagonistic mites in *Cinnamomum camphora* 93

**Antonio DiTommaso, Daniel C. Brainard, and Bradley R. Webster** Seed characteristics of the invasive alien vine *Vincetoxicum rossicum* are affected by site, harvest date, and storage duration 102

**Petra J. Mudie, Sheila Greer, Judith Brakel, James H. Dickson, Clara Schinkel, Ruth Peterson-Welsh, Margaret Stevens, Nancy J. Turner, Mary Shadow, and Rosalie Washington** Forensic palynology and ethnobotany of *Salicornia* species (Chenopodiaceae) in northwest Canada and Alaska 111

**Paul R. Wetzel and Arnold G. van der Valk** The biomass and nutrient levels of *Calamagrostis canadensis* and *Carex stricta* under different hydrologic and fungicide regimes 124

**Lan Lin, Irene Ockenden, and John N.A. Lott** The concentrations and distribution of phytic acid-phosphorus and other mineral nutrients in wild-type and *low phytic acid*1-1 (*lpa*1-1) corn (*Zea mays* L.) grains and grain parts 131

**Instructions to Authors** I-1

**Recommandations aux auteurs** R-1

## February / Février

ARTICLES / ARTICLES

**Md. Sohrab Ali and Kihachiro Kikuzawa** Anisophylly in *Aucuba japonica* (Cornaceae): An outcome of spatial crowding in the bud 143

**Antonio González-Rodríguez, Dulce M. Arias, and Ken Oyama** Genetic variation and differentiation of populations within the *Quercus affinis* – *Quercus laurina* (Fagaceae) complex analyzed with RAPD markers 155

© 2005 NRC Canada

**John E. Major, Alex Mosseler, Kurt H. Johnsen, Om P. Rajora, Debby C. Barsi, K.-H. Kim, J.-M. Park, and Moira Campbell** Reproductive barriers and hybridity in two spruces, *Picea rubens* and *Picea mariana*, sympatric in eastern North America 163

**S. Timonen and S.E. Smith** Effect of the arbuscular mycorrhizal fungus *Glomus intraradices* on expression of cytoskeletal proteins in tomato roots 176

**Maria Renée Orellana, Anna Maria Rovira, Cèsar Blanché, and Maria Bosch** Pollination and reproductive success in the gynodioecious endemic *Thymus loscosii* (Lamiaceae) 183

**Lalla Aïcha Rifai, Tayeb Koussa, Laurence Geny, Aziz Fassouane, Michel Broquedis et Bernadette Dubos** Évolution des teneurs en polyamines libres et conjuguées dans les feuilles de vigne (*Vitis vinifera* 'Cabernet Sauvignon') saine et atteinte d'eutypiose 194

**Bjarne Hjelmsted Pedersen** Development of tensile strength in compatible and incompatible sweet cherry graftings 202

**T. Albert, O. Raspé, and A.-L. Jacquemart** Diversity and spatial structure of clones in *Vaccinium uliginosum* populations 211

**Stéphane Baret, Thomas Le Bourgeois et Dominique Strasberg** Comment *Rubus alceifolius*, une espèce exotique envahissante, pourrait-elle progressivement coloniser la totalité d'une forêt tropicale humide ? 219

**Jeffery P. Dech and M. Anwar Maun** Zonation of vegetation along a burial gradient on the leeward slopes of Lake Huron sand dunes 227

NOTE / NOTE

**Heather L. Shearer and David T. Dennis** Characterization and functional expression in yeast of a cDNA encoding NADP-dependent malic enzyme from castor oil seed 237

## March / Mars

ARTICLES / ARTICLES

**René J. Belland** A multivariate study of moss distributions in relation to environment in the Gulf of St. Lawrence region, Canada 243

**Samira Chbouki, Bill Shipley, and Ahmed Bamouh** Path models for the abscission of reproductive structures in three contrasting cultivars of faba bean (*Vicia faba*) 264

**Gyu-Hyeok Kim, Jae-Jin Kim, Young Woon Lim, and Colette Breuil** Ophiostomatoid fungi isolated from *Pinus radiata* logs imported from New Zealand to Korea 272

**Carlos André Espolador Leitão, Renata Maria Strozi Alves Meira, Aristéa Alves Azevedo, João Marcos de Araújo, Kellen Lagares Ferreira Silva, and Rosane Garcia Collevatti** Anatomy of the floral, bract, and foliar nectaries of *Triumfetta semitriloba* (Tiliaceae) 279

**Rodrigo de Oliveira Plotze, Maurício Falvo, Juliano Gomes Pádua, Luís Carlos Bernacci, Maria Lúcia Carneiro Vieira, Giancarlo Conde Xavier Oliveira, and Odemir Martinez Bruno** Leaf shape analysis using the multiscale Minkowski fractal dimension, a new morphometric method: a study with *Passiflora* (Passifloraceae) 287

**Jin Xiu Zhang, W.G. Dilantha Fernando, and Allen G. Xue** Daily and seasonal spore dispersal by *Mycosphaerella pinodes* and development of mycosphaerella blight of field pea 302

**Lance S. Evans, April Jan B. Young, and Sr. Joan Harnett** Changes in scale and bark stem surface injuries and mortality rates of a saguaro cacti (*Carnegiea gigantea*, Cactaceae) population in Tucson Mountain Park 311

**S. Dudekula, G. Sridharan, and M. Fragata** Effect of α- and β-cyclodextrins on the photochemical activity of thylakoid membranes and photosystem II particles from barley (*Hordeum vulgare*): oxygen evolution and whole chain electron transport 320

**Mitsuko Kagaya, Takashi Tani, and Naoki Kachi** Effect of hydration and dehydration cycles on seed germination of *Aster kantoensis* (Compositae) 329

**Lisa M. O'Connell and Kermit Ritland** Post-pollination mechanisms promoting outcrossing in a self-fertile conifer, *Thuja plicata* (Cupressaceae) 335

## April / Avril

MINIREVIEW / MINISYNTHÈSE

**Vojislava Grbić** Comparative analysis of axillary and floral meristem development 343

ARTICLES / ARTICLES

**Estela L. Durán, L. Daniel Ploper, Juan C. Ramallo, Rosely A. Piccolo Grandi, Ágata C. Hupper Giancoli, and João L. Azevedo** The foliar fungal endophytes of *Citrus limon* in Argentina 350

© 2005 NRC Canada

**Joseph K. Bailey, Ron Deckert, Jennifer A. Schweitzer, Brian J. Rehill, Richard L. Lindroth, Catherine Gehring, and Thomas G. Whitham** Host plant genetics affect hidden ecological players: links among *Populus*, condensed tannins, and fungal endophyte infection 356

**Peter A. Siver and Paul B. Hamilton** Observations on new and rare species of freshwater diatoms from Cape Cod, Massachusetts, USA 362

**Jean M. Gerrath, Uta Matthes, Melissa Purich, and Douglas W. Larson** Root environmental effects on phi thickening production and root morphology in three gymnosperms 379

**Anne Bruneau, Simon Joly, Julian R. Starr, and Josée-Nadia Drouin** Molecular markers indicate that the narrow Québec endemics *Rosa rousseauiorum* and *Rosa williamsii* are synonymous with the widespread *Rosa blanda* 386

**Michael C. Melnychuk and Charles J. Krebs** Residual effects of NPK fertilization on shrub growth in a Yukon boreal forest 399

**Sari Piippo, Ari-Pekka Huhta, Pasi Rautio, and Juha Tuomi** Resource availability at the rosette stage and apical dominance in the strictly biennial *Erysimum strictum* (Brassicaceae) 405

**C. Yen, J.L. Yang, and B.R. Baum** *Douglasdeweya*: A new genus, with a new species and a new combination (Triticeae: Poaceae) 413

**Rebecca T. Tague and Stephanie A. Foré** Analysis of the spatial genetic structure of *Passiflora incarnata* in recently disturbed sites 420

NOTE / NOTE

**John L. Orrock** The effect of gut passage by two species of avian frugivore on seeds of pokeweed, *Phytolacca americana* 427

## May / Mai

REVIEW / SYNTHÈSE

**Ragai K. Ibrahim** A forty-year journey in plant research: original contributions to flavonoid biochemistry 433

ARTICLES / ARTICLES

**C.W. Mims and E.A. Richardson** Light and electron microscopy of teliospores and teliospore germination in the rust fungus *Coleosporium ipomoeae* 451

**Cynthia M. Ross and Michael J. Sumner** Ultrastructure of the fertilized embryo sac in the dwarf mistletoe *Arceuthobium americanum* (Viscaceae) and development of the caecum 459

**Suzanne I. Warwick and Connie A. Sauder** Phylogeny of tribe Brassiceae (Brassicaceae) based on chloroplast restriction site polymorphisms and nuclear ribosomal internal transcribed spacer and chloroplast *trn*L intron sequences 467

**R.A. Shoemaker and S. Hambleton** *Dothidea sambuci* and *Diaporthe spiculosa* 484

**Francisco T. Arroyo, Javier Moreno, Gregorio García-Herdugo, Berta De los Santos, Carmen Barrau, María Porras, César Blanco, and Fernando Romero** Ultrastructure of the early stages of *Colletotrichum acutatum* infection of strawberry tissues 491

**J.E. Wilkin, S.F. Shamoun, C. Ritland, K. Ritland, and Y.A. El-Kassaby** Population genetics of *Gaultheria shallon* in British Columbia and the implications for management using biocontrol 501

**A. Tsuneda and R.S. Currah** Pleomorphic conidiogenesis among strains of *Knufia cryptophialidica* 510

**Tracy S. Hawkins, Jerry M. Baskin, and Carol C. Baskin** Life cycles and biomass allocation in seed- and ramet-derived plants of *Cryptotaenia canadensis* (Apiaceae), a monocarpic species of eastern North America 518

**María Lorena Falcone Ferreyra, María Fabiana Drincovich, Carlos S. Andreo, and Florencio E. Podestá** Characterization of a nonphotosynthetic NADP-malic enzyme from germinating soybean cotyledons: interaction with a 94-kDa polypeptide identified as a lipoxygenase 529

**Monique Poulin, Line Rochefort, François Quinty, and Claude Lavoie** Spontaneous revegetation of mined peatlands in eastern Canada 539

NOTE / NOTE

**Xuan Li, Hong Luo, and Keqin Zhang** A new species of *Harposporium* parasitic on nematodes 558

## June / Juin

REVIEW / SYNTHÈSE

**Michael G. Mason and G. Eric Schaller** Histidine kinase activity and the regulation of ethylene signal transduction 563

© 2005 NRC Canada

ARTICLES / ARTICLES

**Tetsuya Kondo, Nori Okubo, Taku Miura, Carol C. Baskin, and Jerry M. Baskin** Ecophysiology of seed dormancy and germination in the mesic woodland herbaceous perennial *Corydalis ambigua* (Fumariaceae) in Japan **571**

**David A. Collings andGeoffrey O. Wasteneys** Actin microfilament and microtubule distribution patterns in the expanding root of *Arabidopsis thaliana* **579**

**Josef Bogner, Georgia L. Hoffman, and Kevin R. Aulenback** A fossilized aroid infructescence, *Albertarum pueri* gen.nov. et sp.nov., of Late Cretaceous (Late Campanian) age from the Horseshoe Canyon Formation of southern Alberta, Canada **591**

**Daniel Busque and Dominique Arseneault** Fire disturbance of larch woodlands in string fens in northern Québec **599**

**Cara R. Nelson and Charles B. Halpern** Short-term effects of timber harvest and forest edges on ground-layer mosses and liverworts **610**

**Heather E. Whitehouse and Suzanne E. Bayley** Vegetation patterns and biodiversity of peatland plant communities surrounding mid-boreal wetland ponds in Alberta, Canada **621**

**J.M. Kranabetter** Understory conifer seedling response to a gradient of root and ectomycorrhizal fungal contact **638**

**Anton Ivancic, Olivier Roupsard, José Quero Garcia, Vincent Lebot, Vesna Pochyla, and Tom Okpul** Thermogenic flowering of the giant taro (*Alocasia macrorrhizos*, Araceae) **647**

**Abdelali Et-Touil, Danny Rioux, Fabienne M. Mathieu, and Louis Bernier** External symptoms and histopathological changes following inoculation of elms putatively resistant to Dutch elm disease with genetically close strains of *Ophiostoma* **656**

**B.L. Wong, L.J. Staats, A.S. Burfeind, K.L. Baggett, and A.H. Rye** Carbohydrate reserves in *Acer saccharum* trees damaged during the January 1998 ice storm in northern New York **668**

**Edward A. Gage and David J. Cooper** Patterns of willow seed dispersal, seed entrapment, and seedling establishment in a heavily browsed montane riparian ecosystem **678**

**Rein Kalamees, Kersti Püssa, Ilkka Vanha-Majamaa, and Kristjan Zobel** The effects of fire and stand age on seedling establishment of *Pulsatilla patens* in a pine-dominated boreal forest **688**

## July / Juillet

### The 5th International Symposium on Inorganic Carbon Utilization by Aquatic Photosynthetic Organisms / Le 5$^{e}$ symposium international sur l'utilisation du carbone inorganique par les organismes photosythétiques aquatiques

$CO_2$-Concentrating Mechanisms in Photoautotrophic Microorganisms / [Mécanismes de concentration du $CO_2$ dans les micro-organismes photoautotrophes]

INTRODUCTION / INTRODUCTION

**George S. Espie and Brian Colman** $CO_2$-concentrating mechanisms in aquatic photosynthetic microorganisms **695**

ARTICLES / ARTICLES

**Fiona J. Woodger, Murray R. Badger, and G. Dean Price** Regulation of cyanobacterial $CO_2$-concentrating mechanisms through transcriptional induction of high-affinity $C_i$-transport systems **698**

**Patrick J. McGinn, Meaghan J. Jones, Angela B. Macdonald, and Douglas A. Campbell** Light is required for low-$CO_2$-mediated induction of transcripts encoding components of the $CO_2$-concentrating mechanism in the cyanobacterium *Synechococcus elongatus*: analysis by quantitative reverse transcription – polymerase chain reaction **711**

**Anthony K.-C. So and George S. Espie** Cyanobacterial carbonic anhydrases **721**

**Arlene D. Gonzales, Yooli K. Light, Zhaoduo Zhang, Tahera Iqbal, Todd W. Lane, and Anthony Martino** Proteomic analysis of the $CO_2$-concentrating mechanism in the open-ocean cyanobacterium *Synechococcus* WH8102 **735**

**Ben M. Long, G. Dean Price, and Murray R. Badger** Proteomic assessment of an established technique for carboxysome enrichment from *Synechococcus* PCC7942 **746**

**S.C. Burey, S. Fathi-Nejad, V. Poroyko, J.M. Steiner, W. Löffelhardt, and H.J. Bohnert** The central body of the cyanelles of *Cyanophora paradoxa*: a eukaryotic carboxysome? **758**

**Ying Wang, Zhaohui Sun, Kempton M. Horken, Chung-Soon Im, Youbin Xiang, Arthur R. Grossman, and Donald P. Weeks** Analyses of CIA5, the master regulator of the carbon-concentrating mechanism in *Chlamydomonas reinhardtii*, and its control of gene expression **765**

**Mautusi Mitra, Catherine B. Mason, Ying Xiao, Ruby A. Ynalvez, Scott M. Lato, and James V. Moroney** The carbonic anhydrase gene families of *Chlamydomonas reinhardtii* **780**

**Peter Vance and Martin H. Spalding** Growth, photosynthesis, and gene expression in *Chlamydomonas* over a range of $CO_2$ concentrations and $CO_2/O_2$ ratios: $CO_2$ regulates multiple acclimation states **796**

© 2005 NRC Canada

**Baran Tural and James V. Moroney** Regulation of the expression of photorespiratory genes in *Chlamydomonas reinhardtii* **810**

**Yoshiko Nakamura, Saradadevi Kanakagiri, Kyujung Van, Wei He, andMartin H. Spalding** Disruption of the glycolate dehydrogenase gene in the high-$CO_2$-requiring mutant HCR89 of *Chlamydomonas reinhardtii* **820**

**Kensaku Suzuki and Hidenori Onodera** Adaptation of a *Chlamydomonas* mutant with reduced rate of photorespiration to different concentrations of $CO_2$ **834**

**Kensaku Suzuki, Hidenobu Uchida, and Tarlan G. Mamedov** The phosphoglycolate phosphatase gene and the mutation in the phosphoglycolate phosphatase-deficient mutant (*pgp1-1*) of *Chlamydomonas reinhardtii* **842**

**Elly Spijkerman, Stephen C. Maberly, and Peter F.M. Coesel** Carbon acquisition mechanisms by planktonic desmids and their link to ecological distribution **850**

**John Beardall, Simon Roberts, and John A. Raven** Regulation of inorganic carbon acquisition by phosphorus limitation in the green alga *Chlorella emersonii* **859**

**Brian Colman and Konstantine D. Balkos** Mechanisms of inorganic carbon acquisition in two *Euglena* species **865**

**Elly Spijkerman** Inorganic carbon acquisition by *Chlamydomonas acidophila* across a pH range **872**

**John A. Raven, Lucy A. Ball, John Beardall, Mario Giordano, and Stephen C. Maberly** Algae lacking carbon-concentrating mechanisms **879**

**Shabana Bhatti and Brian Colman** Inorganic carbon acquisition by the chrysophyte alga *Mallomonas papillosa* **891**

**Espen Granum, John A. Raven, and Richard C. Leegood** How do marine diatoms fix 10 billion tonnes of inorganic carbon per year? **898**

**Hisashi Harada and Yusuke Matsuda** Identification and characterization of a new carbonic anhydrase in the marine diatom *Phaeodactylum tricornutum* **909**

**Erica B. Young and John Beardall** Modulation of photosynthesis and inorganic carbon acquisition in a marine microalga by nitrogen, iron, and light availability **917**

**Emma Huertas, Gabriel Navarro, Susana Rodríguez-Gálvez, and Laura Prieto** The influence of phytoplankton biomass on the spatial distribution of carbon dioxide in surface sea water of a coastal area of the Gulf of Cádiz (southwestern Spain) **929**

## August / Août

ARTICLES / ARTICLES

**Laurette Combe** Nouvelle méthode de suivi au champ de la sénescence des feuilles de maïs **941**

**S. Banniza, P. Hashemi, T.D. Warkentin, A. Vandenberg, and A.R. Davis** The relationships among lodging, stem anatomy, degree of lignification, and resistance to mycosphaerella blight in field pea (*Pisum sativum*) **954**

**Tammy L. Karst-Riddoch, Michael F.J. Pisaric, Donald K. Youngblut, and John P. Smol** Postglacial record of diatom assemblage changes related to climate in an alpine lake in the northern Rocky Mountains, Canada **968**

**Erin C. Fraser, Victor J. Lieffers, and Simon M. Landhäusser** Age, stand density, and tree size as factors in root and basal grafting of lodgepole pine **983**

**Brett J. Ferguson, Ericka M. Wiebe, R.J. Neil Emery, and Frédérique C. Guinel** Cytokinin accumulation and an altered ethylene response mediate the pleiotropic phenotype of the pea nodulation mutant R50 (*sym16*) **989**

**E. Reszka, K.R. Chung, A. Tekauz, A. Malkus, E. Arseniuk, J.M. Krupinsky, H. Tsang, and P.P. Ueng** Presence of β-glucosidase (*bgl1*) gene in *Phaeosphaeria nodorum* and *Phaeosphaeria avenaria* f.sp. *triticea* **1001**

**Marc D. Meyer and Malcolm P. North** Truffle abundance in riparian and upland mixed-conifer forest of California's southern Sierra Nevada **1015**

**Yuanrun Zheng, Glyn M. Rimmington, Yong Gao, Lianhe Jiang, Xuerong Xing, Ping An, Kamal El-Sidding, and Hideyuki Shimizu** Germination characteristics of *Artemisia ordosica* (Asteraceae) in relation to ecological restoration in northern China **1021**

**Michele D. Piercey-Normore** Lichens from the Hudson Bay Lowlands: northeastern coastal regions of Wapusk National Park in Manitoba **1029**

**J.F. Bain and J.L. Golden** Chloroplast haplotype diversity patterns in *Packera pauciflora* (Asteraceae) are affected by geographical isolation, hybridization, and breeding system **1039**

**Hilde B.M. Tomassen, Alfons J.P. Smolders, Leon P.M. Lamers, and Jan G.M. Roelofs** How bird droppings can affect the vegetation composition of ombrotrophic bogs **1046**

NOTES / NOTES

**H.B. Massicotte, L.H. Melville, and R.L. Peterson** Structural characteristics of root–fungal interactions for five ericaceous species in eastern Canada **1057**

© 2005 NRC Canada

**Fabio Berti, Marco Fambrini, Maurizio Turi, Daniele Bertini, and Claudio Pugliesi** Mutations of corolla symmetry affect carpel and stamen development in *Helianthus annuus* **1065**

ERRATUM / ERRATUM

**David J. Read, Jonathan R. Leake, and Jesus Perez-Moreno** Erratum: Mycorrhizal fungi as drivers of ecosystem processes in heathland and boreal forest biomes **1073**

## September / Septembre

ARTICLES / ARTICLES

**Irwin M. Brodo and André Aptroot** Corticolous species of *Protoparmelia* (lichenized Ascomycotina) in North America **1075**

**Amy S.G. Wilson, Bart J. van der Kamp, and Carol Ritland** Opportunities for geitonogamy in the clonal herb *Maianthemum dilatatum* **1082**

**S.G. Aiken, M.C. LeBlanc, and R.L. Boles** Growth forms and sepal hairs of the purple saxifrage (*Saxifraga oppositifolia*: Saxifragaceae) in North America related to chromosome records and DNA information **1088**

**Om P. Rajora, Ishminder K. Mann, and Yong-Zhong Shi** Genetic diversity and population structure of boreal white spruce (*Picea glauca*) in pristine conifer-dominated and mixedwood forest stands **1096**

**Michael J. Sumner and William R. Remphrey** Microsporogenesis in *Amelanchier alnifolia*: sporogenous cells, microsporocytes, and tetrads **1106**

**Lauchlan H. Fraser and Larry M. Feinstein** Effects of mycorrhizal inoculant, N:P supply ratio, and water depth on the growth and biomass allocation of three wetland plant species **1117**

**Amy S.G. Wilson, Bart J. van der Kamp, and Carol Ritland** Spatial genetic and clonal structure in *Maianthemum dilatatum* as defined by AFLP markers **1126**

**H.A. Quayyum, K.F. Dobinson, and J.A. Traquair** Conidial morphology, virulence, molecular characterization, and host–parasite interactions of selected *Alternaria panax* isolates on American ginseng **1133**

**Nobumasa Arai and Tomohiko Kamitani** Seed rain and seedling establishment of the dioecious tree *Neolitsea sericea* (Lauraceae): effects of tree sex and density on invasion into a conifer plantation in central Japan **1144**

**Hiroshi Fukumoto and Hisashi Kajimura** Cumulative effects of mortality factors on reproductive output in two co-occurring *Quercus* species: which mortality factors most strongly reduce reproductive potential? **1151**

**Charles W. Barnes, Linda L. Kinkel, and James V. Groth** Spatial and temporal dynamics of *Puccinia andropogonis* on *Comandra umbellata* and *Andropogon gerardii* in a native prairie **1159**

**Ken Cullings, Chris Raleigh, and Detlev R. Vogler** Effects of severe dwarf mistletoe infection on the ectomycorrhizal community of a *Pinus contorta* stand in Yellowstone Park **1174**

**David Ladd and Naomi Cappuccino** A field study of seed dispersal and seedling performance in the invasive exotic vine *Vincetoxicum rossicum* **1181**

NOTES / NOTES

**Motoaki Tojo and Satomi Nishitani** The effects of the smut fungus *Microbotryum bistortarum* on survival and growth of *Polygonum viviparum* in Svalbard, Norway **1513**

**Toshihiro Watanabe, Seiji Misawa, and Mitsuru Osaki** Aluminum accumulation in the roots of *Melastoma malabathricum*, an aluminum-accumulating plant **1518**

RAPID COMMUNICATION / COMMUNICATION RAPIDE

**Michael J. Schulz, James F. Cahill, Jr., and Randolph S. Currah** In vitro measurements of the competitive interactions between two saprobic basidiomycetes on *Typha latifolia* **1523**

**December / Décembre**

REVIEW / SYNTHÈSE

**Hélène Sanfaçon** Replication of positive-strand RNA viruses in plants: contact points between plant and virus components **1529**

ARTICLES / ARTICLES

**Kevin J. Kemball, G. Geoff Wang, and Qing-Lai Dang** Response of understory plant community of boreal mixedwood stands to fire, logging, and spruce budworm outbreak **1550**

**Peter M. Letcher, Martha J. Powell, James G. Chambers, Joyce E. Longcore, Perry F. Churchill, and Phillip M. Harris** Ultrastructural and molecular delineation of the Chytridiaceae (Chytridiales) **1561**

**M. Anisul Islam and S. Ellen Macdonald** Effects of variable nitrogen fertilization on growth, gas exchange, and biomass partitioning in black spruce and tamarack seedlings **1574**

**J.D. Beland, J. Krakowski, C.E. Ritland, K. Ritland, and Y.A. El-Kassaby** Genetic structure and mating system of northern *Arbutus menziesii* (Ericaceae) populations **1581**

**Noriyuki Osada** Eranching, biomass distribution, and light capture efficiency in a pioneer tree, *Rhus trichocarpa*, in a secondary forest **1590**

**Charlie Joyce, Andrea Deneau, Kevin Peterson, Irene Ockenden, Victor Raboy, and John N.A. Lott** The concentrations and distributions of phytic acid phosphorus and other mineral nutrients in wild-type and low *phytic* acid Js-12-LPA wheat (*Triticum aestivum*) grain parts **1599**

**Ingibjörg S. Jónsdóttir, Olga Khitun, and Anna Stenström** Biomass and nutrient responses of a clonal tundra sedge to climate warming **1608**

**J. K. Rowntree and E. Sheffield** Effects of asulam spraying on non-target ferns **1622**

**Carol C. Baskin, Jerry M. Baskin, and Alvin Yoshinaga** Morphophysiological dormancy in seeds of six endemic lobelioid shrubs (Campanulaceae) from the montane zone in Hawaii **1630**

**Stein Joar Hegland, Knut Rydgren, and Tarald Seldal** The response of *Vaccinium myrtillus* to variations in grazing intensity in a Scandinavian pine forest on the island of Svanøy **1638**

**Anita C.W. Tsang and Richard T. Corlett** Reproductive biology of the *Ilex* species (Aquifoliaceae) in Hong Kong, China **1645**

**Isabelle Lefèvre, Enrique Corréal, and Stanley Lutts** Cadmium tolerance and accumulation in the noxious weed *Zygophyllum fabago* **1655**

**Thomas Denk and Richard M. Dillhoff** *Ulmus* leaves and fruits from the Early–Middle Eocene of northwestern North America: systematics and implications for character evolution within Ulmaceae **1663**
